

### **PATTON'S WAREHOUSE IN USA**

Patton has forayed into warehouses in Jonesboro, Arkansas and Norfolk, VA, Virginia in US which are strategically close to Customers' locations to stock customer specific products for on time delivery so that customers remain assured that their ordered materials are available just a call away and also not being reflected in their accounts. Inventory management is done by the expert Alert Team where stock levels are monitored 24 x 7 and replenished on real time basis to keep the Inventory updated as per prescribed volumes. Regular Weekly Conference Calls with Representatives from the same organisation based out in different countries Philippines, China and USA also ensure alignment with commitments devoid of any ambiguity. PATTON is a Govt. Recognised Export House and Star Exporter of Steel Stampings and EMT Fitting Products to Fortune 500 Companies in the US. Patton has rapidly increased its product portfolio with diverse range of products for the Electrical Market in US, Canada, Mexico and Middle East. PATTON products are retail packaged with customer logo and made ready for shelf. Patton Products are certified to global standards such as Underwriters Laboratories (UL) & Canadian Standard Association (CSA).
