

PATTON[®]

BUILT WITH TRUST. BUILT TO LAST.

www.pattonindia.com

Patton International Limited is a customer focussed corporate house. Patton is constantly adding value to our customers in manufacturing of high precision Steel Engineering and various type of plastic products.

PATTON has extensive capabilities in design and development and has received multiple recognitions locally and internationally. With our quality and care for safety, we cater to a wide range of industries including Power & Electrical, Construction, Oil & Gas, Storage & Flow Management, Waste Management, and Material Handling.

Patton products are carefully Designed, Tested and Certified by renowned local & international testing and certification organisations.

Customer First – We exist because of the customer. We respect customer requirements by focusing on innovation and strive for perfection by which our customer experiences outstanding value added products. We garner all our expertise to fulfil our commitments to our customers, going beyond their expectations.

Our motto is to provide consistent, high quality service. Our client's time is our time and we honour the timelines set while ensuring prompt delivery of goods. We will continue in our endeavours to provide healthy storage and distribution for drinking water, waste management solution for clean environment ensuring easy availability to all communities at affordable prices to benefit everyone.

Our aim is to serve society and contribute towards a cleaner, greener environment.

For conservation towards a better tomorrow, we need to start today.

STEEL DIVISION

- **CNC Precision Machining**
- **Sheet Metal Stamping**
- **Tubular Components**
- **Complex Die Casting**
- **Die & Tool Designing Expertise**
- **Flexible Contract Manufacturing**
- **In-house Product Designing**
- **End-to-end Engineering solutions**
- **Global Compliances**

PLASTIC DIVISION

- **Sophisticated State-the-of-Art manufacturing facilities**
- **Scientifically designed ready-to-use comprehensive product range**
- **Advanced R&D facilities with in-house product designing**
- **USFDA approved Food Grade Materials**
- **Expertise in Drinking Water Storage & Distribution Management**
- **Materials Handling, Storage and logistic solutions**
- **Waste Management Solutions**

STEEL PRODUCTS

EMT CONDUIT FITTINGS

01

STORAGE SOLUTIONS: TANKS

- Made from 100% virgin USFDA approved food grade materials
- Scientifically designed to distribute water load for better life
- Advance Technology used to manufacture the Tanks
- Seamless design for long lasting leakage proof
- Uniquely designed lead to protect contamination, odour and fungus

FLOW MANAGEMENT SOLUTIONS: **PIPES** 02

- Non-corrosive and immune to galvanic or electrolyte erosion
- Smoother inner surface reduces friction resulting in better flow of water
- Lighter in weight, easy to install
- Hygienic and provides safe drinking water
- Long lasting , free from weakness caused by scale formation

03

WASTE MANAGEMENT SOLUTIONS: **WASTE BINS**

- Manufactured with latest Technology with advance machineries
- Wide range available from 10 Ltrs to 1100 Ltrs
- Suitable for all kinds of Liquid and dry waste
- Scientifically designed for better storage and better life
- Special models for Medical Waste

MATERIAL HANDLING SOLUTIONS: **CRATES**

04

- Scientifically designed, light weight with more strength
- Hygienic, Environment friendly
- Resistant to chemicals, non-toxic
- Can withstand wide range of temperature
- Space saving Stackable and nest able designs

05 SPECIALISED SOLUTIONS

- Specially designed Chemical Tanks
- Specially designed Underground & Septic Tanks
- Innovatively design water on Wheels
