Dear Ms. Budhia,

On behalf of my commanding officer and the entire team, I wish to express my gratitude for providing us with such an innovative and economical item which is surely helping us fight the present COVID-19 situation in an effective manner.

This innovation has ensured added safety to our men who come to work on a regular basis in large scale with our services being considered of essential nature. That said, we shall definitely like to promote your services by word of mouth to all our allied unit/services.

Our best wishes to you and your team for rendering excellent services in these challenging times

## 'Patton' launches a new hand washing product

### OUR CORRESPONDENT

Breaking new grounds and making a positive difference in the community is an essential part of the values of 'Patton Group'. They have risen to the occasion to combat COVID-19 by launching a hygienic hand washing product - the 'Contactless Safe Wash Station'.

Amidst this global pandemic, seeing the need for an efficient, safe, cost-effective solution for hand washing in this new normal, 'Patton' decided to design, develop and debut the hand washing product as a safety initiative. The product is hands-free, foot-operated, compact, strong and durable. Easy to operate and maintain, it is suitable for residential, commercial, industrial, medical and public spaces.

After testing multiple prototypes, two variations of the first model were launched - the Regular Single Basin (200 litre tank capacity) and the 'Ultra Single Basin' (500 litre tank capacity). The overwhelmingly positive response to these and further R & D led to the design of a second model that is a sanitisation must-have for places with high footfall. Designed

is made of powder coated metal, making it rust-proof.

These unique products are not only easy to assemble, transport, maintain, but also have a sleek, compact design that makes it space-saving too. They are manufactured, pre-assembled, quality checked, transported, and installed on-site by 'Patton'. Some of the happy customers include Indian Army, Indian Navy, West Bengal State Agricultural Marketing Board, Saroj Gupta Cancer Centre and Research Institute, Thakurpukur etc.

Next-gen leader Preyram Budhia, President, Business Development, 'Patton Group', has taken the lead in her newest project - 'Contactless Safe Wash Station'. Upon being asked about the early stages of product development, she said, "We are already living in a VUCA (Volatile, Uncertain, Complex, Ambiguous) world and COVID-19 has shaken up our very way of existing, locally and globally. It was the need of the hour to be prepared for a post-lockdown new normal. Hand-washing is crucial to winning this battle and our focus was on creating a solution that could be easily adopted by multiple sectors and industries."

with both safe and efficient hand washing in mind, 'Contactless Safe Wash Station 2.0 Deluxe Dual' has two foldable basins that allow for two people to safely and simultaneously wash their hands.

For all models, the 200-litre tank allows for up to 300 hand washes per refill while the 500-litre tank allows for up to 750 hand washes per refill. Available in black, blue, and green, the water tanks are made of 100% virgin food-grade plastic. The stand on which the tank is placed

## 'Combat Covid' tank for safe wash

Times News Network

Kolkata: Patton, one of the leaders in water tanks, is entering into 'combat Covid' products ramp. Patton has designed and developed Contactless Safe Wash Station as a hands-free and foot-operated safety initiative.

It is easy to operate and maintain, it is suitable for residential, commercial, industrial, medical, and public spaces," the company has said.

Preyram Budhia (President - business development), Patton Group, pointed out that the 200-litre tank allows for up to 300 hand washes per refill, while

### CONTACT-LESS

the 500-litre tank allows for up to 750 hand washes per refill. The company already got clients such as Indian Army, Indian Navy, INS Netaji Subhas, the West Bengal State Agricultural Marketing Board, Royal

Calcutta Golf Club (RCGC) for the new ranges.

On the early stages of product development, Budhia said, "We are already living in a VUCA (Volatile, Uncertain, Complex, Ambiguous) world and COVID-19 has shaken up our very way of existing, locally and globally. It was the need of the hour to be prepared for a post-lockdown 'new normal'. Our focus was on creating a solution that could be easily adopted by multiple sectors and industries."

## Patton launches Contactless Safe Wash Station to combat COVID-19

### KOLKATA, JULY 30

Breaking new grounds and making a positive difference in the community is an essential part of Patton Group's values, sources said. They have risen to the occasion to combat COVID-19 by launching a hygienic handwashing product - the Contactless Safe Wash Station, sources added.

Amidst this global pandemic, seeing the need for an efficient, safe, cost-effective solution for handwashing in this new normal, Patton decided to design, develop and debut the Contactless Safe Wash Station as a safety initiative. The product is hands-free, foot-operated, compact, strong and durable. Easy to operate and maintain, it is suitable for residential, commercial, industrial, medical, and public spaces.

After testing multiple prototypes, two variations of the first model were launched - the Regular Single Basin (200 Litre Tank Capacity) and the Ultra Single Basin (500 Litre Tank Capacity).

The overwhelmingly positive response to these and further R&D led to the design of a second model that is a sanitisation must-have for places with high footfall. Designed with both safe and efficient handwashing in mind, this model - Contactless Safe Wash Station 2.0 Deluxe Dual - has two foldable

basins that allow for two people to safely and simultaneously wash their hands.

For all models, the 200-litre tank allows for up to 300 hand washes per refill while the 500-litre tank allows for up to 750 hand washes per refill. Available in black, blue, and green, the water tanks are made of 100% virgin food-grade plastic. The stand on which the tank is placed is made of powder coated metal, making it rust-proof.

These unique products are not only easy to assemble, transport, maintain, but also have a sleek, compact design that makes it space-saving too. They are manufactured, pre-assembled, quality checked, transported, and installed on-site by Patton.

A complimentary anti-microbial liquid soap approved by the FSSAI (Food Safety & Standards Authority of India) allows the customer to start using the product immediately. Some of the happy customers include:

Indian Army  
Indian Navy, INS Netaji Subhas  
West Bengal State Agricultural Marketing Board  
Saroj Gupta Cancer Centre & Research Institute, Thakurpukur  
Medical Superspecialty Hospital  
"India Institute of Cerebral Palsy (ICP),  
"Royal Calcutta Golf Club

globally. It was the need of the hour to be prepared for a post-lockdown 'new normal'. Handwashing is crucial to winning this battle and our focus was on creating a solution that could be easily adopted by multiple sectors and industries."
